

Linksys RE1000 | Wireless-N Range Extender

Extend the range of your existing wireless network and connect wired devices to your wireless network.

Ideal for:

- Extending the range of your current wireless network to enjoy increased in-home mobility
- Connecting wired devices such as an Internet ready TV or Blu-ray player to the wireless network through the built-in Ethernet port

Key features:*

- Compatible with b/g/n Wi-Fi devices
- Recommends the ideal placement distance during setup to help achieve optimal coverage and performance
- Built-in Ethernet port to connect wired devices
- Connects to the wall socket directly or can be placed flexibly by connecting the 1,5m power extension cable

Linksys RE1000 | Wireless-N Range Extender

Broad compatibility

The Linksys RE1000 works with all b/g/n Wi-Fi devices so you can connect all of the computers and devices around your home. For best performance, pair with any Wireless-N router.

Extended range

Built with leading 802.11n wireless technology, the Linksys RE1000 provides reliable performance. Multiple MIMO (multiple input, multiple output) antennas extend your router's wireless coverage into hard-to-reach areas of your home.

Flexible placement

Wall outlet or desktop placement options help you to optimise the location and position of your RE1000 to achieve the best possible range and performance.

Quality of service

The integrated QoS technology helps to prioritise latency-sensitive traffic which can help you to watch an episode of your favorite TV show, place a phone call or play multiplayer games without interruptions caused by other activities.

Ethernet bridge

Includes a built-in Ethernet port to connect any wired Ethernet device to your wireless network.

Easy setup

The Cisco Connect setup wizard makes installation quick and easy. By recommending the best distance to place the range extender from your router you can achieve optimal coverage and performance. The Wi-Fi Protected Setup™ button is designed to help make connecting devices to your range extender push-button simple and more secure. **

Setup & manage with ease

Cisco Connect Software

- ✓ Setup in few easy steps
- ✓ Customisable parental controls
- ✓ Instant guest access
- ✓ Optional advanced settings

MINIMUM SYSTEM REQUIREMENTS

Wireless Existing b/g/n wireless router or access point

Web Browser Internet Explorer 7, Safari 4, or Firefox 3 or higher for optional browser-based configuration

PC Wi-Fi enabled PC with CD or DVD drive, running Windows XP SP3, Windows Vista SP1, or Windows 7

Mac Wi-Fi enabled Mac with CD or DVD Drive, running OS X Leopard 10.5 or Snow Leopard 10.6

PACKAGE CONTENTS

- Linksys RE1000 Wireless-N Range Extender
- CD-ROM with Cisco Connect software and resources
- Ethernet cable
- Power adapter for table or desktop placement
- Power connector cover

TECHNICAL SPECIFICATIONS

Model	Linksys RE1000
Technology	Wireless-N
Bands	2.4 GHz
Transmit/Receive	2 x 2
Antennas	2 Internal
Ports	1 Ethernet
Software Setup	Cisco Connect
OS Compatibility	Windows, Mac
Package dimensions	24.4 x 15.8 x 8.2 cm (w x h x d)
Warranty	2 year hardware limited warranty

Simply powerful

home.cisco.com

*Maximum performance derived from IEEE Standard 802.11 specifications. Actual performance can vary, including lower wireless network capacity, data throughput rate, range and coverage. Performance depends on many factors, conditions and variables, including distance from the access point, volume of network traffic, building materials and construction, operating system used, mix of wireless products used, interference and other adverse conditions.

**Secure push-button setup works with devices that support Wi-Fi Protected Setup™ like Cisco Linksys E-Series routers and others.
