

My Book[®] Live[™] Duo

Personal Cloud Storage

**Dual-drive shared storage
for computers, tablets and
smartphones**

Create your own personal cloud

Protect your data with double-safe backup

Store, access and stream with best-in-class speed

Connect this powerful drive to your wireless router for shared storage on your home network. Share data with all your computers, stream media to your entertainment center, and get to your files from anywhere with remote access and mobile apps. And with RAID 1 technology, you have double-safe backup for your data.

PUT YOUR LIFE ON IT[®]

My Book Live Duo

Personal Cloud Storage

Product Features

Your media and files on your own personal cloud

Create your own personal cloud, without the monthly fees and mysterious location of your data. Store your media and files on the drive and access them securely over the Internet. Or, use WD's mobile apps for easy access with your tablet or smartphone.

Maximum storage capacity or double-safe backup

Out of the box, this two-drive system combines both drives into one big volume so they act like one drive for maximum capacity. Or, set this system to data protection mode (also known as mirrored mode or RAID 1) and the capacity is divided in half. Half of the capacity is used to store your data and half is used for a second copy.

Complete out-of-the-box solution

My Book Live Duo comes complete with two desktop hard drives offering high-capacity, low power consumption and cool, quiet operation.

Shared storage for all your computers

Connect the My Book Live Duo to your wireless router to share and access files with any PC or Mac® computer on your network.

Speed without compromise

Built with an 800 MHz CPU for maximum performance to power all your applications from streaming to remote access. This product delivers best-in-class read speeds faster than traditional USB 2.0 drives.

Now streaming to your HDTV

The built-in media server streams music, photos and movies to any DLNA-certified multimedia device such as a WD TV® Live™ streaming media player, Blu-ray Disc™ player, Xbox® 360, PlayStation® 3 and connected TV. DLNA® 1.5 & UPnP™ certified.

Serve up your music with iTunes®

Includes iTunes server support so you can centralize your music and stream it to any Mac or PC with iTunes.

Automatic, wireless backup for all your computers

Windows® users can use the included WD SmartWare™ software and every time you save something, it's instantly backed up. Mac users can utilize all the features of Apple® Time Machine® backup software to protect their data.

Easy to set up, easy to find on your network

Mac, Windows 7, and Windows Vista® computers will automatically find your My Book Live Duo in seconds. If you're running Windows XP, our simple discovery software makes it easy to set up the drive.

USB expansion port

Connect a USB 2.0 drive to the USB port on the My Book Live Duo and it will automatically be shared on your network to instantly add even more shared storage.

Access stored files with apps for iPad®, iPhone® iPod touch®, BlackBerry®, Windows®, and Android™ mobile devices.

WD Photos™
Photo Viewer App

WD 2go™
File Viewer App
