Product Features

Dual USB 3.0 and USB 2.0 connectivity

A single drive with universal compatibility today and next-generation speed for tomorrow. Use it with USB 2.0 now and step up to USB 3.0 speed when you're ready.

Up to 3x faster transfer rates

When connected to a SuperSpeed USB 3.0 port this drive lets you access and save files up to three times faster than USB 2.0. Transfer a 2-hour HD movie in just three and a half minutes instead of 13 minutes.*

**Performance may vary based on user's hardware and system configuration.*

WD quality inside and out

For over 20 years, millions of people worldwide have trusted their data to WD hard drives. We are successful because we understand the importance of your data and our first concern is keeping that data safe.

WD SmartWare software

You're in control of your backup. Install all the features, select just the components you need, or if you prefer, choose not to use the software at all.

Automatic, continuous backup

Works quietly in the background to protect your data using minimal PC resources. Whenever you add or change a file it's instantly backed up.

Password protection for privacy

Gain peace of mind knowing that your data is protected from unauthorized access with password protection and encryption.*

** A model with disabled encryption is also available.*

Planet friendly

We designed a small box and used recycled material to minimize waste. We encourage you to recycle it.

USB 3.0 transfers files up to 3x faster than USB 2.0 *
